

Gorman Health Group Forms New Partnership with TRP Health Policy, Expands Health Policy Footprint with Daily E-Newsletter, *The Insider*

WASHINGTON – August 1, 2016. Gorman Health Group (GHG), the leading consulting firm and solutions provider in government-sponsored healthcare programs, is proud to announce a new partnership with TRP Health Policy to further deliver real-time business intelligence, best-in-class health policy consulting, and introduce a broad range of advocacy services to our clients.

“Since 1996, leadership teams from Medicare, Medicaid, and provider systems have come to GHG for guidance and support on the direction of government-sponsored healthcare,” explained Jeff Fox, GHG’s President and Chief Executive Officer. “We see the solutions offered by TRP Health Policy as highly complementary to our already strong offerings in serving our clients in Medicare, Medicaid, and the Health Insurance Marketplace.”

In addition, we’ve launched our latest product offering, *The Insider*, an exclusive daily email distribution providing in-depth analysis and expert summaries on the most critical legislative and political activities impacting your organization and shaping the future of Medicare, Medicaid, and the Health Insurance Marketplace. With the growing uncertainty in Congress, the significance of trade association and advisory group priorities, regulations, and sub-regulatory guidance is growing rapidly. Much more will be happening below the waterline. The need for real-time policy intelligence has never been greater.

“*The Insider* offers decision-makers in every department of an organization direct access to the right information at the right time – providing a complete, inside view of the industry, from policy and politics to efficient and compliant private sector operations, to drive business forward,” continued Fox.

Our experts, seasoned healthcare regulators, and former health plan executives break down every new rule, regulation, legislation, industry trend, and Health Plan Management System (HPMS) memo. For members of *The Insider*, your organization will gain comprehensive analysis and summaries of high-priority notices delivered directly to your inbox each day – allowing members to filter the noise and focus on the issues of importance with confidence and precision.

Further, our partnership with TRP Health Policy allows our clients a complete understanding of every policy impacting your organization’s specific goals through a broad range of strategic consulting and advocacy services.

“We are thrilled about our new relationship with GHG,” said Billy Wynne, Managing Partner at TRP Health Policy. “In today’s environment, stakeholders require a breadth of relationships and political acumen as well as highly qualified expertise on the issues that matter most. We are eager to offer both sides of this value proposition via in-depth policy expertise, research, analysis, and sophisticated lobbying alongside our established partner in this space, GHG.”

About Gorman Health Group | Gorman Health Group (GHG) is a leading consulting and software solutions firm specializing in government health programs, including Medicare managed care, Medicaid, and Health Insurance Marketplace opportunities.
