- Easy to see
  - Color combinations
    - Avoid yellow
    - Colors with contrast
  - Pictures = don’t forget your audience
  - Reverse type and backgrounds
  - Fonts

- How does the health plan communicate with their members to better understand their needs?
- Does the health plan know what the customer really wants and needs?
- How is the health plan currently perceived in the market today, not just by current members, but by prospects, providers, employers, and community influencers?
- Does the health plan have knowledge of the current inventory of member touchpoints that exist today?
