

New Product Offers Exclusive Industry Intel and Health Policy Analysis to Government-Sponsored Health Programs to Drive Business Forward

WASHINGTON – June 6, 2017. Gorman Health Group (GHG), the leading consulting firm and solutions provider in government-sponsored healthcare programs, is proud to introduce our latest product offering, *The Insider*, an exclusive daily intelligence briefing offering in-depth analysis and expert summaries on the most critical legislative and political activities impacting your organization and shaping the future of Medicare, Medicaid, and the Health Insurance Marketplace.

“In today’s environment, stakeholders require instant expertise on fast-moving developments in government-sponsored health programs. *The Insider* offers decision-makers in every department of health plan and provider organizations direct access to actionable intelligence,” said John Gorman, GHG’s Founder & Executive Chairman. “There is so much information available to executives today that it’s becoming noise. *The Insider* cuts through it all and distills developments into what you need to know and act on today.”

Our experts, seasoned healthcare regulators, and former health plan executives break down every new rule, regulation, legislation, industry trend, and Health Plan Management System (HPMS) memo. *The Insider* also provides direct access to GHG experts. Members will have the opportunity to join a weekly teleconference offering a rundown of the latest news impacting your organization hosted by John Gorman and the GHG Policy team. Plus a monthly roundtable discussion providing unparalleled perspective on the latest agency news with a panel of CMS veterans.

“With growing uncertainty in Congress, the significance of trade association and advisory group priorities, regulations, and sub-regulatory guidance is growing rapidly. Much more will be happening below the waterline, out of sight of major media. The need for real-time policy intelligence has never been greater,” continued Gorman.

Your organization will gain comprehensive analysis and summaries of high-priority notices delivered directly to your inbox each day – allowing members to filter the noise and focus on the issues of importance with confidence and precision. Start your day with the industry information you need, and get back to work. It’s that simple.

ABOUT GORMAN HEALTH GROUP | Gorman Health Group is the leading consulting and software solutions firm specializing in government health programs, including Medicare managed care, Medicaid, and Health Insurance Marketplace opportunities.
